

ACE Drop A2: Entry Summary and Revenue *Summary*

What's in A2?

Post release, entry summary processing, and finance functionality will transition from ACS to ACE

Inter-agency sharing of financial information through ACE

ACE will become the system of record for Entry Summary, Liquidation, and Reconciliation processing

Integration between ACE Subsidiary Ledger and the CBP General Ledger to include financial information for all ACE accounts

New Functionality for PGAs

Access to Entry Summary, Finance, and related Trade Account Data. A small sample of accessible data includes:

- Entry summary details
- Duties, Taxes, and Fees
- Prior disclosure
- Post summary corrections
- Bond processing and sufficiency

Census will have improved override code processing for the trade to proactively set Census override codes

Import Administration (IA) users will have the ability to maintain AD/CVD cases in collaboration with CBP users

PGA users will have access to a consolidated view of ESAR reports including new financial and post release reports
